

JGJSOLAR
SOLUTIONS

**Solar Engineered Excellence
for Commercial & Industrial,
Residential Consumers**

About Us

For over a decade, we have been contributing to India's green energy transition across the Commercial & Industrial sector. As an experienced and specialised Solar PV firm, we have partnered with leading IPPs & EPC contractors to deliver technically robust, financially sound, and scalable solar solutions.

CAPEX

Engineered Solar Solutions for Commercial, Industrial & Residential Enterprises.
Optimized CAPEX. Intelligent Design. Measurable ROI.

OPEX

High-Performance Solar for Commercial, Industrial & Residential Enterprises.
Zero Upfront Investment. Zero Maintenance. Pay Only for the Power You Use.

Operational

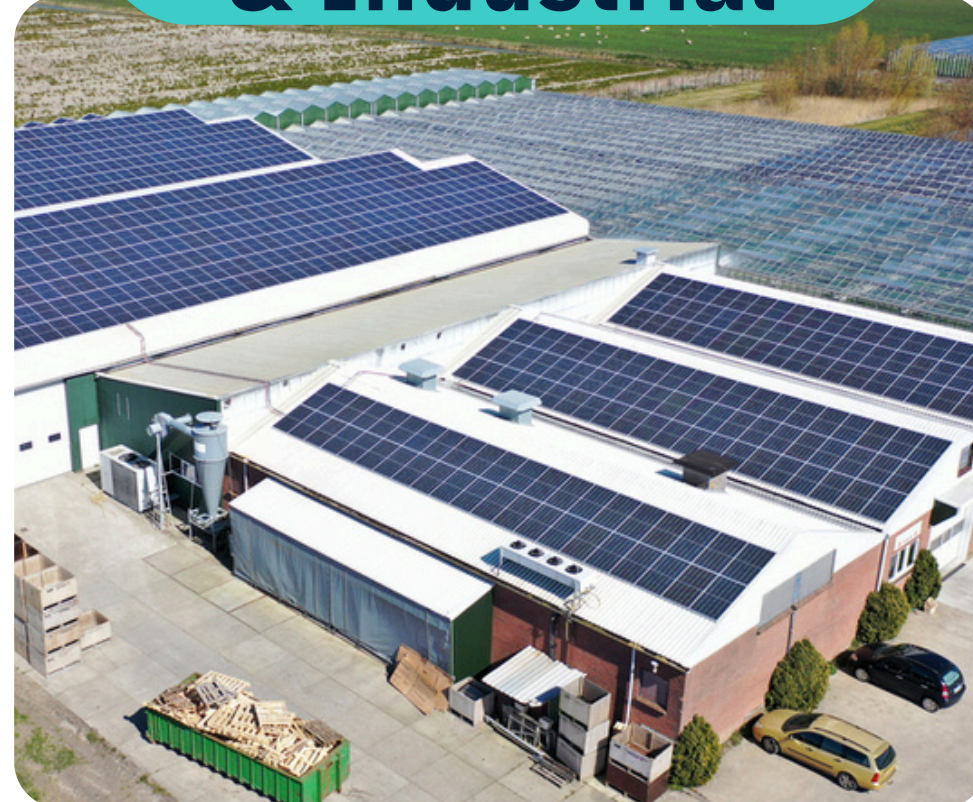

Residential

Smart rooftop systems designed to reduce household electricity bills and increase energy independence.

High-efficiency, low-maintenance solutions with long-term savings and reliable performance.

Commercial & Industrial

Engineering-led solar solutions that lower operating costs and improve energy predictability.

Available under CAPEX or Pay-As-You-Go models, across rooftop and ground-mount installations.

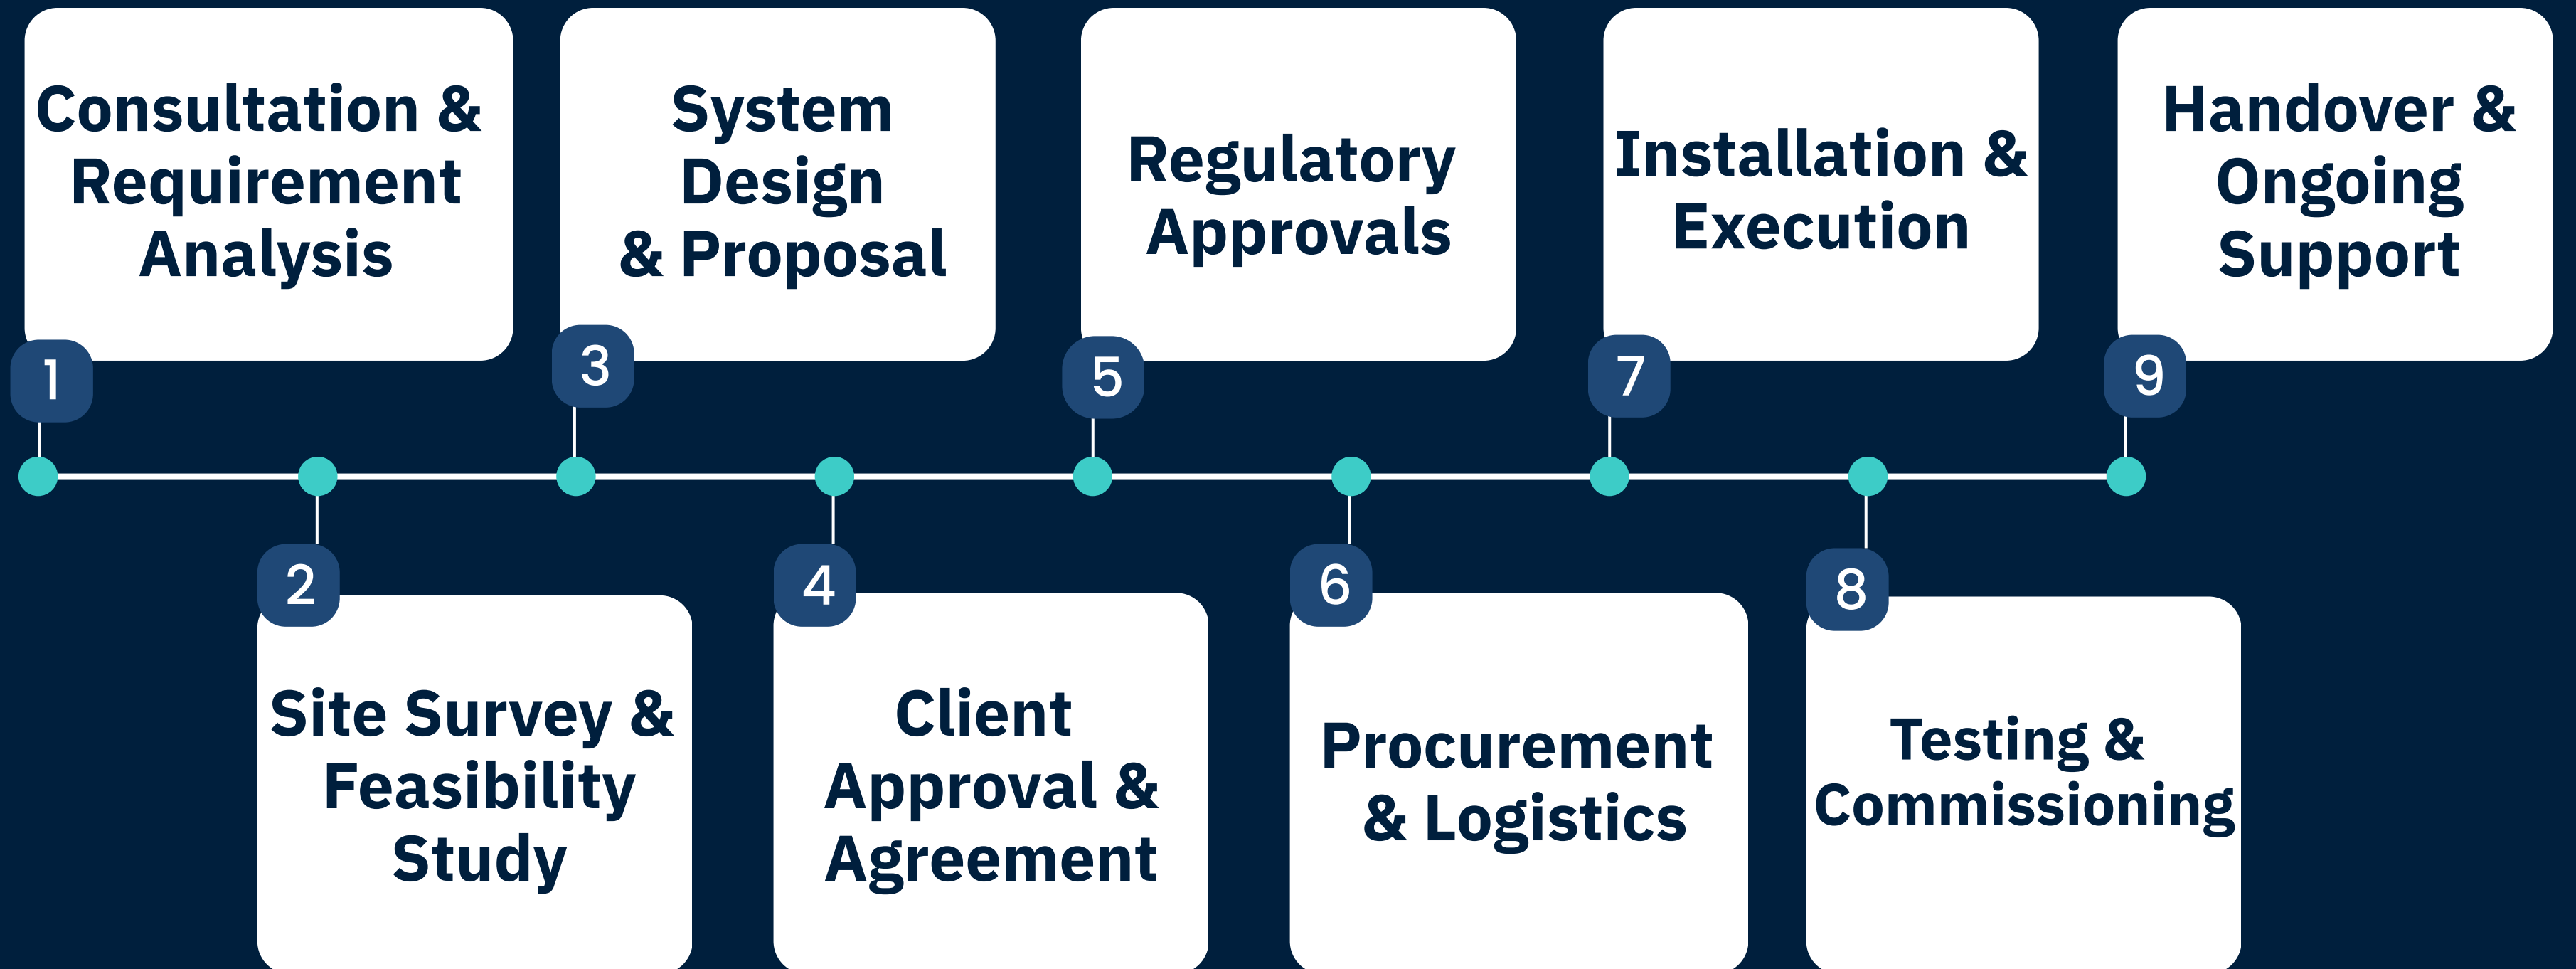

Open Access

Solar power delivered directly to your facility from solar farms through long-term power purchase agreements.

Secure lower tariffs than grid power without investing in on-site infrastructure.
